Profile

Full-stack developer building web applications, browser extensions, developer tools, and automation software focused on solving real-world problems.

Education

Bachelor of Computer Applications (BCA)

PSIT College of Higher Education (PSIT CHE), Kanpur, Uttar Pradesh

Skills

Languages: Python, JavaScript, TypeScript, Rust, C++

Frontend: React, HTML, CSS, Tailwind

Backend: Flask, Django, FastAPI, Node.js

ML: Pandas, Scikit-Learn, Matplotlib

Database: MongoDB, SQLite, PostgreSQL, SQL

Tools: Git, GitHub, Docker, VS Code, Plasmo, Electron

Featured Projects

- **DevSync (In Development)** – Building a full-stack collaborative development platform using React, FastAPI, PostgreSQL, Docker, and JWT authentication. Implemented secure REST APIs, authentication, and project collaboration features. Currently preparing the application for cloud deployment and private alpha testing.
- **CodeLens AI** – AI-assisted code analysis platform for repository analysis and structured source-code insights.
- **Chronopolis Detective Simulator** – Detective simulation game featuring clue discovery, NPC schedules, interrogation mechanics, evidence tracking, and case progression systems.
- **Yap Wars** – Interactive Discord bot with multiplayer roast battles, voting systems, and moderation.
- **CoachHub** – Role-based coaching institute management system with student, teacher, and admin panels.
- **RageShield + FeedGuard** – Browser extension for content control, category blocking, reply checking, and feed purity scoring.
